Confluence Spaces People Create

Paragraph B I U A

The best part of our whole lifetime is our childhood and the things we used to do those old days become now our memories. Today, I will share with you some of my best memories. I was born and raised in a rural area which was a very beautiful nature. There was a flowing river, several types of flowers, trees and animals. I grew up in a big family with lots of loving members. My mother was my best friend. She used to cook delicious meals for us. She used to teach me the letters and a few poems that I still can recite. My father was a loving and caring person. He used to buy us new clothes and many playing equipments. He managed to spend a huge time with us and took us to different places. One day, he invited the whole family for a picnic in the forest. We had lunch in nature and practised our favourite hobbies like: playing hide and seek, climbing trees and picking up flowers.

My first day at school is one of the most memorable events in my life. I was scared and nervous when I looked at children crying. I was afraid of teachers, too but mum encouraged me and ended my fear. My teacher was friendly. She played with us in the classroom and gave us candy and chocolate. The teacher of English came and told us jokes and laughed a lot. To me her class was a real joy. We played football almost every afternoon and returned home with mud-stained pants.

Now, I realise what a wonderful childhood I had and at times I wish I could relive those days again and again.
