## Public statement about "Fighting Corruption"

Dear fellow citizens,

Corruption is any unethical, illegal and immoral practice that must be fought immediately because it has ruined our society recently, hence, if I were elected as president, I would implement the following anti-corruption plans.

**Firstly**, I would pass stringent laws and regulations in order to punish corrupt people, leaders, and servants with harsh penalties. *and heavy fines.*

**Secondly**, I would rehabilitate the value of work by relying on transparency in selecting civil servants who would work honestly for the country's future.

**In the same vein**, I would establish anti-corruption organizations and make the best use of technology to raise public awareness about the negative consequences of illegal acts.

**Finally**, since poverty is regarded as one of the primary causes of the spread of corruption, I would raise the minimum wage for individuals so that everyone can afford the ~~necessary~~ *necessary* needs of life.

**To conclude**, I could tell you, fellow countrymen that your role as citizens is required to fight corruption. No government can succeed without the help of civil society. Therefore, I urge you to gather around me to win this decisive battle. Vote for honesty! Vote for me!

## Syllable division (Syllabalization)

### Overview:

Each phonetic syllable must have one and only one vowel sound.

The number of vowel sounds left is the same as the number of syllables (the number of vowel sounds "not vowel letters" determines the number of syllables in a word).

Diphthongs count as only one sound: (eɪ, ɔɪ, aɪ), (əʊ, aʊ), (ɪə, ʊə, eə).

Subtract any silent vowels like the silent "e" at the end of a word.

a-u-i-e-o-

is always silent
