Answers: the modern world is facing several threats among them:

- 1- Climate change is considered as a major threat since it leads to the loss of sea ice and increases the rate of natural disasters such as earthquakes and floods. So nations must stop producing this
- 2- Pollution is a human made that has many consequences such as increasing the risk of respiratory infection, heart diseases and lung cancer. العدوى التنفسية
- 3- Nuclear weapons nowadays have unbelievable consequences that cannot be compared at all with Atomic bomb or Hiroshima and Nagasaki since they can wipe out life on earth in few seconds. فلاسه

هذا هو الخطر
الذي نتحدث عنه
وهو التلوث

فلاسه
تلوث

- The Modern challenges

· Ancient civilizations sacrificed to facilitate modern life in different fields; however, the world today is still facing many serious threats. ⇒ *Thesis statement*

· **To begin with**, it is proven that climate changes have many consequences **such as** the loss of sea ice and increasing the rate of natural disasters such as earthquakes and floods **that's why** it is considered as one of the major challenges.

· **In the same vein**, no one can deny that pollution is human-made that has disastrous effects on people's lives **such as** increasing the risk of respiratory infection, heart disease, and lung cancer, **therefore** scientists must act as soon as possible to limit it.

· **To summarize**, modern life is easy, enjoyable and pleasant, but it is also unsafe and dangerous.
