⇒ The availability of E-Tools in business
ensures a good Reputation as a Result
it boost the economy.

The Importance of Ethics in Business

Ethics are a set of moral values and principles that control or influence a person's behaviour and determine what is right wrong and appropriate in the workplace. These principles are very crucial for our professional life.

To start with, when managers follow business ethics, discipline issues will be minimized. **When** a business director or chief acts ethically, employees follow in his footsteps. He gains their respect because with a well-respected leader, a successful business is easy. **In addition**, the availability of ethical practices can create a good working environment. It establishes healthy and pleasant cooperation for all the employees, making them feel comfortable with each other. It also increases trust among them. **Furthermore**, Strong business ethics often encourage managers to show appreciation for an employee's hard work. **As a result**, team members may be more loyal to the company and strive to be more productive. And this helps ensure a good reputation for a company, factory, organization...

To sum up, to be a successful businessman you'd better hold your work to a high standard of fairness, honesty and quality because "ill-gotten gains never prosper". That's why, ethics are important not only in business but in all aspects of life.

Part One: Reading.
A- Comprehension:

(15 Points)
(07 pts)

Read the text carefully then do the following activities:

We are taught the importance of ethics and morals from a very early age. We are taught right from wrong- that stealing, lying, cheating and bullying are things that bad people do while caring for others, working hard, respecting the rules and taking care of the environment are some of the fundamentals of being a "good person". But how do those ethics we learn in the early stages of our childhood relate to business? How can big companies ensure that their businesses are operating in an ethical way and why is it even important?

Writing for Forbes last year, CEO of the Institute for High-Character Leadership, Bruce Weinstein argued that "The principles of ethics that help us solve ethical dilemmas in everyday life are the same principles that provide guidance in business, health care, law and education" and he cited " 1. Do not harm, 2. Make things better, 3. Respect others, 4. Be fair and 5. Care" as those key principles.

Maintaining good practices and strong business ethics should be a key consideration for all organisations, whatever the size, for numerous reasons, but the first and foremost is reputation. A positive reputation is an invaluable asset and once lost, it is incredibly difficult to rebuild. |

Hard work is not the only thing that makes children lives difficult; *their* families are poor so they have no shelter and no sources. Because they have no education, they are condemned to be poor all their lives.

The British charity "*Save the Children*" says that it is important to talk child labourers to find solutions. Not all work is bad or dangerous. In some cases, if children can't work, they or their families can't survive. Boycotts of products made using child labour result in the children being forced to do a work that is more dangerous. Save the Children supports projects that give young workers access to education and better working conditions.

For example, in the Democratic Republic of Congo, teenagers from poor families receive some money to start businesses. They can buy products to sell at the market and make some money. Because they are the bosses, they can choose when to work and they have money to pay for school.

Embroiders like Nancy can go to class organized by "*Save the Children*". The charity also helps them get reasonable pay for their work. Nancy says: "Now, *we* know our products sell very well in Europe. Before, I didn't know how much money I received. It was written down. I couldn't read it. I thought it was a good idea to ban products made by children. However, I live in the practical world, and I am very concerned about my family.
