Education is the process of transmitting and acquiring knowledge, skills, values, beliefs, and the development of an individual. **It is considered an essential component of every person's life due to many factors.**

Firstly, it's completely true that education helps in creating good citizens **that** contribute in ensuring security and peace to the country. **Secondly,** it plays a significant role in the progress of nations **by** broadening people's knowledge and thinking. **Finally, no one can deny that** education establishes contact between nations and civilizations **which** benefits the global prosperity.

To conclude with, we must be conscious of the importance of education in our lives and work to improve our educational system.
