Fill the blanks with the words given to get a coherent paragraph:

W Poverty - largest - has - They - people - food W

Worldwide, the number of hungry people dropped significantly over the past two decades, but 821million people continue to struggle with hunger every day. Many factors contribute to the state of hunger both in the United States and abroad. The reasons are complex and varied, and often interconnected.

Poverty is the main cause of hunger in the world. This is true in rich and poor countries alike. It is true no matter whether people live in urban or rural areas. Most who are hungry are living in extreme poverty, defined as income of \$1.90 per day or less. The groups of people in the world in extreme poverty are smallholder farmers in developing countries.

They do not have the land to grow enough food to supply themselves with enough to eat year-round and they earn so little income from what they sell that they cannot afford to purchase from other sources once their own supply runs out.
